## NEWS RELEASE

### Port resumes operations with arrival of Matson vessel - assessments of facilities are ongoing

#### **MAN-YI Release No. 4**

**Piti, Guam, November 13, 2024:** Operations at the Port Authority of Guam have resumed with the arrival of Matson's Daniel K. Inouye container vessel at 4:00 p.m. today. Meanwhile, assessments for the rest of the facilities are ongoing following the passage of Tropical Storm Man-Yi.

At 1 p.m. today the U.S. Coast Guard placed the Port back in Port Heavy Weather Condition WHISKEY and port operations resumed.

"Following the declaration of Condition of Readiness 4 by Acting Governor Josh Tenorio, the Port Authority of Guam resumed operations at 1 p.m. today. Gantry cranes G5 and G6 are currently operational and ready to discharge cargo from Matson's Daniel K. Inouye container vessel. Gantry crane G4 is still undergoing assessment, and updates on its status will be provided once it becomes operational. The Port team remains committed to ensuring the safe and efficient handling of cargo to meet the needs of our island community and our region."

Assessments will continue throughout the day on the impact of the storm to the container yard and Port facilities.
