***Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$16.20 per hour). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to contracts or contract-like instruments entered into with the federal government in connection with seasonal recreational services or seasonal recreational equipment rental for the general public on federal lands.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS: HEALTH & WELFARE: \$4.98 per hour, up to 40 hours per week, or \$199.20 per week or \$863.20 per month. HEALTH & WELFARE EO 13706: \$4.57 per hour, up to 40 hours per week, or \$182.80 per week, or \$792.13 per month* *This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; and 4 weeks after 3 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract. Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional

under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) ****

Conformance Process: The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed. The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.
- 6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."

SPECIAL PROVISIONS

RESTRICTION AGAINST SEX OFFENDERS EMPLOYED BY SERVICE PROVIDERS TO GOVERNMENT OF GUAM FROM WORKING ON GOVERNMENT PROPERTY.

If a contract for services is awarded to the bidder or offeror, then the service provider must warranty that no person in its employment who has been convicted of a sex offense under the provisions of chapter 25 of Title 9 of Guam code Annotated or of an offense defined in Article 2 of chapter 28 of Title 9 of the Guam Code annotated, or who has been convicted in any other jurisdiction of an offense with the same elements as heretofore defined, or who is listed on the Sex Offender Registry, shall provide services on behalf of the service provider while on government of Guam property, with the exception of public highways. If any employee of a service provider is providing services on government property and is convicted subsequent to an award of a contract, then the service provider warrants that it will notify the Government of the conviction within twenty-four (24) hours of the conviction, and will immediately remove such convicted person from providing services on government property. If the service provider is found to be in violation of any of the provisions of this paragraph, then the government will give notice to the service provider to take corrective action. The service provider shall take corrective action within twenty-four (24) hours of notice from the Government, and the service provider shall notify the Government when action has been taken. If the service providers fail to take corrective steps within twenty-four (24) hours of notice from the Government, then the Government in its sole discretion may suspend temporarily and contract for services until corrective action has been taken.

- A. Termination for Default, Nonperformance or Delay, Damages for Delay, Time Extensions.
1. Default. If Contractor refuses or fails to perform any of the provisions of the contract awarded under this solicitation with such diligence as will ensure its completion within the time specified, or any extension thereof, otherwise fails to timely satisfy the contract provisions, or commits any other substantial breach of these terms, PAG may notify Contractor in writing of the delay or non-performance and if not cured in ten days or any longer time specified in writing by PAG, PAG may terminate Contractor's right to proceed with the contract or such part of the contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part PAG may procure similar supplies or services in a manner and upon terms deemed appropriate by the PAG. Contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.
 2. Contractor's Duties. Notwithstanding termination of the contract and subject to any directions from the PAG, Contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Contractor in which the PAG and the government of Guam has an interest.
 3. Compensation. Payment for completed supplies delivered and accepted by PAG shall be at the contract price. Payment for the protection and preservation of property shall be in an amount agreed upon by Contractor and the PAG; if the parties fail to agree, the PAG shall set an amount subject to Contractor's rights under Article 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations. PAG may withhold from amounts due Contractor such sums as the PAG deems to be necessary to protect the PAG against loss because of outstanding liens or claims of former lien holders and to reimburse the PAG for the excess costs incurred in procuring similar goods and services.
 4. Excuse for Nonperformance or Delayed Performance. Except with respect to defaults of subcontractors, Contractor shall not be in default by reason of any failure in performance of the contract in accordance with its terms (including any failure by Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if Contractor has notified the PAG within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the government of Guam and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Contractor shall not be deemed to be in default, unless the supplies or services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Contractor to meet the contract requirements. Upon request of Contractor, the PAG shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Contractor's progress and performance would have met the terms of the Agreement, the delivery schedule shall be revised accordingly, subject to the rights of the government of Guam under the clause entitled (in fixed-price contracts, "Termination" for Convenience in cost-reimbursement contracts) "Termination". (As used in this Paragraph of this clause the term "subcontractor" means subcontractor at any tier.)
 5. Erroneous Termination for Default. If, after notice of termination of Contractor's right to proceed under the provisions of this clause, it is determined for any reason that Contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, be the same as if the notice of termination had been issued pursuant to the clause providing for termination for convenience.
 6. Additional Rights and Remedies. The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under this solicitation or awarded contract.
- B. Termination for Convenience
1. PAG may, when the interest of PAG so require, terminate any awarded contract in whole or in part, for the

convenience of PAG or the government of Guam. PAG shall give written notice of the termination to Contractor specifying the part of the contract terminated and when termination becomes effective.

2. Contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination Contractor will stop work to the extent specified. Contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. Contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work.

C. Compensation.

1. Contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data to the extent required by 2 GAR, Div. 4, § 3118 (Cost or Pricing Data) of the Guam Procurement Regulations bearing on such claim. If Contractor fails to file a termination claim within one year from the effective date of termination, the PAG may pay Contractor, if at all, an amount set in accordance with Subparagraph (c) of this Paragraph.

2. The PAG and Contractor may agree to a settlement provided the Contractor has filed a termination claim supported by cost or pricing data to the extent required by 2 GAR, Div. 4, § 3118 (Cost or Pricing Data) of the Guam Procurement Regulations and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the PAG, and the contract price of the work not terminated.

3. Absent complete agreement under Subparagraph (2) of this Paragraph, the PAG shall pay Contractor the following amounts, provided payments agreed to under Subparagraph (b) shall not duplicate payments under this Subparagraph:

(i) contract prices for services accepted under the Agreement;

(ii) costs incurred in preparing to perform and performing the terminated portion of the work plus a fair and reasonable profit on such portion of the work (such profit shall not include anticipatory profit or consequential damages) that shall be no less than the fees due for the portion of the term calculated up-through the date of termination calculated on a pro-rata basis, less amounts paid or to be paid for accepted services; provided, however, that if it appears that Contractor would have sustained a loss if the entire Agreement would have been completed, no profit shall be allowed or included and the amount of compensation shall be reduced to reflect the anticipated rate of loss;

(iii) costs of settling and paying claims arising out of the termination of subcontracts or orders pursuant to Paragraph (b) of this clause. These costs must not include costs paid in accordance with Subparagraph (3)(b) of this Paragraph;

(iv) the reasonable settlement costs of Contractor including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the Agreement for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to the terminated portion of this Agreement.

The total sum to be paid Contractor under this Subparagraph shall not exceed the total contract price plus the reasonable settlement costs of Contractor reduced by the amount of payments otherwise made and the contract price of work not terminated.

4. Cost claimed, agreed to, or established under Subparagraph (b) and (c) of this Paragraph shall be in accordance with Article 7 (Cost Principles) of the Guam Procurement Regulations.

[X] 53. STOP WORK ORDER/SUSPENSION OF SERVICES:

A. Suspension for Convenience. The Procurement Officer may order the Contractor in writing to suspend, delay, or interrupt all or any part of the services for such period of time as may be appropriate for the convenience of PAG.

B. Adjustment of Cost. If the performance of all or any part of the services is, for an unreasonable period of time, suspended, delayed, or interrupted by an act of the Procurement Officer in the administration of the awarded contract, or by the failure of the Procurement Officer to act within the time specified in this Agreement (or if no time is specified, within reasonable time), an adjustment shall be made for any increase in the cost of performance of the contract necessarily caused by such unreasonable suspension, delay, or interruption and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent: (a) that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor; or (b) for which an adjustment is provided for or excluded under any other provision of the contract.

C. Time Restriction on Claim. No claim under this clause shall be allowed: (a) for any costs incurred more than twenty (20) days before the Contractor shall have notified the Procurement Officer in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order); and (b) Unless the claim is asserted in writing as soon as practicable after the termination of such suspension, delay, or interruption, but not later than the date of final payment under the contract.

D. Adjustments of Price. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this Agreement.

[X] 54. STANDARD PRICE ADJUSTMENT CLAUSE:

A. Price Adjustment Methods. Any adjustment in contract price pursuant to the awarded contract shall be made in one or more of the following ways:

1) by agreement on a fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;

2) by unit prices specified in the Bid, Proposal, contract, or as subsequently agreed upon;

3) by the costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as specified in the contract or subsequently agreed upon;

4) in such other manner as the parties may mutually agree; or

5) in the absence of an agreement between the parties, by a unilateral determination by the Procurement Officer of costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as computed by the Procurement Officer in accordance with generally accepted accounting principles and applicable sections under Chapter 7 (Cost Principles) of the Guam Procurement Regulations and subject to the provisions of Article 5, Chapter 5 of 5 GCA (Legal and Contractual Remedies) of the Guam Procurement Law.

B. Submission of Cost or Pricing Data. The Contractor shall submit cost or pricing data for any price adjustments subject to the provision of Section 3118 (Cost or Pricing Data) of the Guam Procurement Regulations. The PAG may require the Contractor to provide invoices, paid bills, or any other proof it deems appropriate to determine compliance with this provision.

C. Price Adjustment for Inaccurate Cost or Pricing Data. Any Change Order, Amendment, or modification to this Agreement which increases the price of the contract shall be adjusted to exclude any significant sums by which the PAG finds that such price was increased because the contractor furnished cost or pricing data was inaccurate, incomplete or not current as of the date agreed upon between the Parties. The price shall also be adjusted to reflect the nonpayment by the Contractor of any taxes which would have been paid by the Contractor were it not for the exclusion provided by 11 GCA § 26203(k)(14) (Business Privilege Tax). Adjustments shall conform to the Defective Cost or Pricing Data Clause of the Guam Procurement Rules and Regulations.

[X] 55. **CLAIMS BASED UPON PAG'S ACTIONS OR OMISSIONS:**

A. Notice of Claim. If any action or omission on the part of the PAG or any entity within the government of Guam, requiring performance changes within the scope of the solicitation or awarded contract constitutes the basis for a claim by Contractor for additional compensation, damages, or an extension of time for completion, Contractor shall continue with performance of the contract in compliance with the directions or orders of the PAG, but by so doing, Contractor shall not be deemed to have prejudiced any claim for additional compensation, damages, or an extension of time for completion; provided:

(1) Contractor shall have given written notice to the PAG:

(a) prior to the commencement of the work involved, if at that time, Contractor knows of the occurrence of such action or omission;

(b) within 30 days after Contractor knows of the occurrence of such action or omission, if Contractor did not have such knowledge prior to the commencement of the work; or

(c) within such further time as may be allowed by the PAG in writing.

This notice shall state that Contractor regards the act or omission as a reason which may entitle Contractor to additional compensation, damages, or an extension of time. The PAG, upon receipt of such notice, may rescind such action, remedy such omission, or take such other steps as may be deemed advisable in the discretion of the PAG.

(2) The notice required by Subparagraph (A) of this Paragraph describes as clearly as practicable at the time the reasons why Contractor believes that additional compensation, damages, or an extension of time may be remedies to which Contractor is entitled; and

(3) Contractor maintains and, upon request, makes available to the PAG within a reasonable time, detailed records to the extent practicable, of the claimed additional costs or basis for an extension of time in connection with such changes.

B. Limitations of Clause. Nothing herein contained, however, shall excuse Contractor from compliance with any rules of law precluding any government of Guam officers and any contractors from acting in collusion or bad faith in issuing or performing change orders which are clearly not within the scope of the solicitation or awarded contract.

[X] 56. **Remedies** Any dispute arising under or out of the awarded contract is subject to the provisions of Article 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations.

[X] 57. **MANDATORY DISPUTES CLAUSE:**

A. PAG and the Bidder/Contractor agree to attempt resolution of all controversies which arise under, or are by virtue of, this procurement and any resulting contract through mutual agreement. If the controversy is not resolved by mutual agreement, then the Bidder/Contractor shall request the government in writing to issue a final decision within sixty days after receipt of the written request. If the government does not issue a written decision within sixty days after written request for a final decision, or within such longer period as may be agreed upon by the parties, then the Bidder/Contractor may proceed as though the government had issued a decision adverse to the Bidder/Contractor.

B. PAG shall immediately furnish a copy of the decision to the Bidder/Contractor, by certified mail with a return receipt requested, or by any other method that provides evidence of receipt.

C. PAG's decision shall be final and conclusive, unless fraudulent or unless the Bidder/Contractor appeals the decision.

D. This subsection applies to appeals of the PAG's decision on a dispute. For money owed by or to the PAG under the contract, the Contractor shall appeal the decision in accordance with the Government Claims Act by initially filing a claim with the Office of the Attorney General no later than eighteen months after the decision is rendered by the PAG or from the date when a decision should have been rendered. For all other claims by or against the PAG arising under this procurement or awarded contract, the Office of the Public Auditor has jurisdiction over the appeal from the decision of the PAG. Appeals to the Office of the Public Auditor must be made within sixty days of the PAG's decision or from the date the decision should have been made.

However, if the PAG determines in writing that continuation of services under the awarded contract is essential to the public's health or safety, then the Contractor shall proceed diligently with performance of the contract notwithstanding any claim of material breach by the PAG.

[X] 58. **STATUTORY INTEREST CLAUSE:**

[X] 60. **MULTI-TERM CONTRACT:** (A) the amount of supplies or services required for the proposed contract period; (B) that a unit price shall be given for each supply or service, and that such unit prices shall be the same throughout the contract (except to the extent price adjustments may be provided in the solicitation and resulting contract); (C) that the multi-term contract will be cancelled only if funds are not appropriated or otherwise made available to support continuation of performance in any fiscal period succeeding the first; however, this does not affect either the territory's rights or the contractor's rights under any termination clause in the contract; (D) that the Procurement Officer must notify the contractor on a timely basis that the funds are, or are not, available for the continuation of the contract for each succeeding fiscal period; (E) whether bidders or offerors may submit prices for: (i) the first fiscal period only; (ii) the entire time of performance only; or (iii) both the first fiscal period and the entire time of performance; (F) that a multi-term contract may be awarded and how award will be determined including, if prices for the first fiscal period and entire time of performance are submitted, how such prices will be compared; and in the event that funds are not available for any succeeding fiscal period, the remainder of such contract shall be cancelled and the contractor shall be reimbursed the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies delivered or services performed under the contract.

[X] 61. **SIGNATURES:** This Agreement may be signed by the parties electronically, and in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of an executed counterpart by one party to the other may be made by electronic transmission.

RAID (Redundant Array of Independent Disks)

For optimal performance when configuring drives as a RAID volume, Dell recommends drive models that are identical.

NOTE: RAID is not supported on Intel Optane configurations.

RAID 0 (Striped, Performance) volumes benefit from higher performance when drives are matched because the data is split across multiple drives: any IO operations with block sizes larger than the stripe size will split the IO and become constrained by the slowest of the drives. For RAID 0 IO operations where block sizes are smaller than the stripe size, whichever drive the IO operation targets will determine the performance, which increases variability and results in inconsistent latencies. This variability is particularly pronounced for write operations and it can be problematic for applications that are latency sensitive. One such example of this is any application that performs thousands of random writes per second in very small block sizes.

RAID 1 (Mirrored, Data Protection) volumes benefit from higher performance when drives are matched because the data is mirrored across multiple drives: all IO operations must be performed identically to both drives, thus variations in drive performance when the models are different, results in the IO operations completing only as fast as the slowest drive. While this does not suffer the variable latency issue in small random IO operations as with RAID 0 across heterogeneous drives, the impact is nonetheless large because the higher performing drive becomes limited in all IO types. One of the worst examples of constrained performance here is when using unbuffered IO. To ensure writes are fully committed to non-volatile regions of the RAID volume, unbuffered IO bypasses cache (for example by using the Force Unit Access bit in the NVMe protocol) and the IO operation will not complete until all the drives in the RAID volume have completed the request to commit the data. This kind of IO operation completely negates any advantage of a higher performing drive in the volume.

Care must be taken to match not only the drive vendor, capacity, and class, but also the specific model. Drives from the same vendor, with the same capacity, and even within the same class, can have very different performance characteristics for certain types of IO operations. Thus, matching by model ensures that the RAID volumes is comprised of a homogeneous array of drives that will deliver all the benefits of a RAID volume without incurring the additional penalties when one or more drives in the volume are lower performing.

OptiPlex Small Form Factor Plus 7010 supports RAID with more than one hard drive configuration.
