INVITATION FOR BID IFB-PAG-005-24
Reefer Generator Power Supply
Questions and Responses

Question submitted by USA Contractors via e-mail on March 22, 2024

Question #1: Would the Port Authority of Guam accept other brands? The reason we asked is that POWER POOL PLUS has mentioned working with one specific local supplier and would not entertain other inquiries. This practice eliminates local companies from participating in the tender process.

PAG's Response: Yes, the Port can accept other brands that comply to the specifications. The added brochure is there to be used as a reference only and does not mean it would be the only one acceptable by the Port.

Question #2: Should the Port Authority of Guam accept alternatives, would your respective department accept a greater model or a 50-plug Mobile Reefer Generator Power Supply and Distribution System? Please see specifications attached.

PAG's Response: No, the specifications indicated on the IFB have been approved by MARAD. Bidders providing alternatives may compromise funding so the Port shall not accept bids that do not conform to the specifications.

Rory J. Respicio
 General Manager
